

Litter pan not included.
Some assembly needed.

KatLoo™ is a three-sided, open top decorative litter enclosure made of durable plastic. The outside dimensions are 23.5" long x 18.5" wide x 19.5" high. Most sizes and styles of litter pans will fit inside.

KatLoo™ is easy to assemble and does not use tools, fasteners, clips, brackets, tape or glue. The flat panels slide into the plastic extrusion slots and are held firmly in place by friction.

Use the three attractive cat scenes included or send us photos of your cats, ferrets, rabbits, kids, or favorite scenes and we will provide professionally printed images customized to fit the KatLoo™ enclosure.
